

BIOGRAPHY

DJ Bazio began his music career as a local and guest DJ in 2015. I have been in several countries to learn more about music with professional DJs from each countries. In 2018 DJ Bazio was hire as a official resident DJ at the club in Thailand. Where he was known for his ability to mix two songs together to create tunes that were unique in their own right. He then began inserting a new genre of music to people that doesn't know the kind of genre in the play set.

From DJ gigs in Singapore and Malaysia he have ram down all the crowd to the highest energy of music such as Hard Dance and Hard Trance thats make the crowd go wild.c
